

Machinery Directive (AVMD2)

Course

2 day training course covering the Machinery Directive 2006/42/EC and CE marking requirements

Why attend

All machinery suppliers must ensure machinery is safe and CE marked: this means it needs to comply with all relevant directives - specifically the Machinery Directive.

This training will deal in detail with CE marking obligations and the requirements of the Machinery Directive. The training will take you through performing risk assessments, the Essential Health and Safety Requirements, how to compile a technical file and general CE marking requirements. At the end of this course you will have a good understanding of what your company's obligations are to comply with CE marking regulations.

When

- 26 & 27 April 2017
- 12 & 13 September 2017

Location

Training facilities in the Macclesfield area.

Who is it for

Importers of machinery, machinery designers, purchasers, mechanical engineers, project managers, machine and control system designers, safety or process engineers.

How is it delivered

The course will consist of a combination of presentations and exercises, providing interactive participation and question and answer sessions. The days will run from 09.00 to 16.30, with refreshments and lunch provided. All participants will receive a certificate of attendance.
