

PUWER training (AVPR2)

Course

2 day course covering the content and application of the Provision and Use of Work Equipment Regulations (as amended)

Why attend

All employers have an obligation under PUWER to ensure all work equipment supplied to their employees is safe.

This training offers a module on Risk Assessment and an overview of the content of PUWER and gives you a method for the application, implementation and management of the PUWER regulations at your work place. You will be supplied with templates for risk assessments and PUWER assessments. This course will allow you to carry out risk assessments and PUWER assessments for your equipment.

When

- 14 & 15 March 2017
- 8 & 9 August 2017

Location

Training facilities in the Macclesfield area.

Who is it for

Facility managers, engineering managers, production managers, safety managers, process engineers, production team leaders and anyone else who is responsible for managing, specifying and purchasing work equipment.

How is it delivered

The course will consist of a combination of presentations, exercises and worked examples and will involve interactive participation with question and answer sessions. The day will run from 09.00 to 16.30, with refreshments and lunch provided. All participants will receive a certificate of attendance.

Programme

- Introduction and background to the PUWER Regulations
- Risk assessments
- Legal requirements
- Roles and responsibilities
- Implementation
- PUWER assessments and records
- Review process and monitoring

How much will it cost:

£475 + VAT per delegate
