

amtri veritas is a Machinery Directive Notified Body with 20 years of experience in machinery safety. amtri veritas is also a UKAS accredited Certification Body providing management system certification for ISO 9001 and ISO 14001.

## Senior Compliance Engineer at amtri veritas

amtri veritas is looking to recruit a Senior Compliance Engineer to join its CE Compliance team in Macclesfield.

### Role

After a training period the role of the Senior Compliance Engineer is as follows:

- Perform machinery inspections according to Machinery Directive requirements
- Advise our customers on CE marking and machinery safety requirements
- Providing customer training both at customer sites and at our offices
- Carry out PUWER compliance checks
- Technical file creation and review

The role is based from the Macclesfield office, but these activities may take place worldwide and frequent travel is a requirement of the job.

### Skills and requirements:

- Sound engineering capabilities
- Excellent communication skills; ability to write clearly; native English speaker; tact and diplomacy in customer interaction
- Attention to detail: ability to understand, interpret and apply legal requirements and standards
- Interest in working for an internationally operating company, with regular travel in the UK and abroad
- Evidence of hands-on machinery experience/design experience would be an advantage
- Experience in a technical compliance role would be an advantage
- A good understanding of what it means to work in an impartial manner
- You will need a full UK driver's license and your own means of transport

### Remuneration

If successful, you will be offered a competitive salary in the range of £35,000 to £45,000, depending on experience, pension contribution, 25 days holiday, excellent training and development opportunities and an international working environment at the forefront of technology.

A test will be part of the recruitment process.

Please send your application and CV including an indication of your current salary to E, Beun, Managing Director [amtri veritas \(office@amtriveritas.com\)](mailto:office@amtriveritas.com).
